 \*\* 5 lb bags are available for extra savings (\$10.00 per pound)

## Fair Trade Coffee

Fair Trade effort puts socially concerned consumers in a position to support small- scale farmers. The Fair Trade Organization ensures that farmers receive a fair price for their coffee with a guaranteed minimum. Then farmers can afford health care, education, nutrition and housing. Fair Trade educates the farmers in farming methods that protect the environment, preserves natural habitat and produces higher quality beans.

Purchase your premium coffee by completing an order form and placing it with a check in the designated collection box at church. Orders and payment must be received by the third Sunday of each month, with pickup at church on the following Sunday. Your order includes shipping and a donation to CCC Youth Group projects, such as mission trips, food baskets among others.

Thank you, for your support.
